

10-25-19

Dear 4<sup>th</sup> Grade Families,

This was a great week! The students completed a science experiment lab with dirt and water that they had to design and execute as a group. They had some interesting observations and conclusions. They continued learning about maps and have been perfecting their adding skills. They have been reading and writing up a storm. Mrs. Morgan (who has been going to every class each month) and Mrs. Wnuk (to celebrate Julia's birthday) both came in to read to us. Thank you!

Red Ribbon Week has been a fun extra this week and will continue next week. Monday is Twinning Day. Since we have an odd number of students in our class and we didn't want anyone to feel left out, we decided to all dress the same. So, the students decided to wear their Spirit Shirts. Bottoms need to be uniform bottoms. It will be fun to see our family of 4<sup>th</sup> grade "twins" on Monday!

I understand the excitement is growing for Halloween. I have cautioned the class to continue to do their best even when it gets harder to control themselves. If you would reinforce this at home, that would be great. They have come so far this year! I don't want to see them slip back into bad habits. They all do such a great job when they try!

Thank you to those of you who have already signed up for conferences! I look forward to meeting with you all. Remember too, that your child is invited to attend if you choose.

Thank you to all of you who are sending in supplies, food, etc. for the Halloween Party! I look forward to seeing some of you next week.

I've tried sending out some announcements and reminders on the Remind App. I hope you are getting them.

Thank you for your continued support in all ways!

Sue Cleary
